- Ensuring of company's data centers security (physical, logical, environment);
- Ensuring proper security measures are applied to third-party vendors and monitoring their performance;
- Assist IT managers with Information security audits and prepare management response and facilitate the remediation efforts;
- Identification and review of necessary processes and procedures, and securing that they are in compliance with local and EU legislation, Group requirements and contractual obligations;
- Delivering security compliance reports;
- Perform security threat and risk assessments.

Requirements:

- Preferably Master degree and practical experience in IT security/risk management
- Good understanding of IT infrastructure, application development, network security, end-user security and key threat protection solutions
- Good knowledge of applicable IT security management practices required to establish proper IT security governance & compliance
- Knowledge of key relevant legal, regulatory and statutory requirements, technical interpretation and the ability to provide advice thereon
- Good understanding of best practice standards and governance frameworks such as ISO27000, ITIL, FFIEC or COBIT
- Excellent communication skills in English
- Experience in similar role in finance industry would be considered as an advantage
- ISACA certification (CISM, CISA, CRISC, CGEIT) would be considered as advantage

We offer:

- Full time position;
- Interesting and challenging assignments within modern and international company;
- Plenty of challenges and continuous development opportunities, both professionally and personally;
- Competitive compensation package.

Salary: 4000 EUR (gross)

All the candidates interested in applying for the position are asked to submit applications (in English) including CV and cover letter to career@compensa.lt.
Only selected candidates will be informed.

We ensure the confidentiality of your personal information and would like to state that personal data of not short-listed candidates will be deleted after the selection process is finished. If you prefer to be contacted by ADB „Compensa Vienna Insurance Group“ or other subsidiaries of „Vienna Insurance Group“ operating in Lithuania within 1 year period with similar job offerings please indicate such consent when sending your CV.
